PROFESSIONAL SUMMARY

I am a final year Computer Science student at Bindura University of Science Education and will graduate in late 2026. I am motivated, detail-oriented, and have one year of hands-on ICT support & helpdesk experience. Extensive experience in networking, operating systems, information security principles, and enterprise IT environments. Demonstrated ability to troubleshoot technical problems, provide user-centered support, and ensure business continuity in a high-pressure environment.

EDUCATION

BSc (Honours) Computer Science | *BINDURA UNIVERSITY of SCIENCE EDUCATION* | 2022 – 2026

- Relevant modules: Computer Security, Operating Systems, Database Management Systems, Data Communications, Software Engineering, Algorithms & Data Structures, Cybersecurity Fundamentals
- Final year project: Fake News Detection using Hybrid Deep learning with Explainable AI

WORK EXPERIENCE

IT Intern | *ZAOGA FIFM INTERNATIONAL HEADQUARTERS* | 2024 – 2025

- Provided technical support and helpdesk assistance to end users, resolving hardware, software, and connectivity issues.
- Installed, configured, and maintained desktops, laptops, printers, and peripheral devices across the organisation.
- Assisted with network troubleshooting, including LAN/WAN connectivity issues and IP configuration.
- Supported deployment and patching of workstations, ensuring systems were updated and compliant with organisational ICT policies.
- Maintained accurate asset registers and documentation of hardware inventory, software licences, and configuration records.

- Collaborated with the ICT team on infrastructure improvement initiatives and contributed to internal knowledge base updates.

TECHNICAL SKILLS

LANGUAGES

Python · SQL · JavaScript · Java · C++

ML / AI

Keras · TensorFlow · FastText · LIME · SHAP

WEB / BACKEND

Flask · HTML/CSS · REST APIs

DATABASES

PostgreSQL · MySQL · MongoDB

TOOLS

Git · VS Code

ACADEMIC PROJECTS

TruthLens — Fake News Detection

CNN-BiLSTM · FastText · Flask · LIME / SHAP · Python

- Trained a hybrid deep learning model on WELFake, LIAR, and ISOT datasets, achieving 94%+ accuracy. • Integrated Explainable AI (LIME word highlighting) into a Flask web frontend for end users.
- Extended with Zimbabwe-specific fine-tuning via scraped local news corpora.

EXTRA-CURRICULAR ACTIVITIES

- Participated in a university-level coding hackathon and was in fourth place
